

SARC Information

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

- For more information about SARC requirements and access to prior year reports, see the California Department of Education (CDE) SARC web page at <https://www.cde.ca.gov/ta/ac/sa/>.
- For more information about the LCFF or the LCAP, see the CDE LCFF web page at <https://www.cde.ca.gov/fg/aa/lc/>.
- For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

DataQuest

DataQuest is an online data tool located on the CDE DataQuest web page at <https://dq.cde.ca.gov/dataquest/> that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

California School Dashboard

The California School Dashboard (Dashboard) <https://www.caschooldashboard.org/> reflects California's new accountability and continuous improvement system and provides information about how LEAs and schools are meeting the needs of California's diverse student population. The Dashboard contains reports that display the performance of LEAs, schools, and student groups on a set of state and local measures to assist in identifying strengths, challenges, and areas in need of improvement.

Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served

basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

School Mission Statement (School Year 2021-22)

The school's mission is to provide students seeking an alternative school setting with a personalized approach to learning that empowers them to take responsibility for their education and to graduate with the skills they need to become responsible citizens and lifelong learners.

In order to carry out this mission, the school strives to equip the surrounding area students with the educational skills necessary in the 21st century - the ability to read, write, speak, and calculate with clarity and precision and the ability to participate intelligently and responsibly in a global society. The school offers alternative choices through site-based learning, independent study, and distance learning to enable students to acquire the knowledge necessary to make a difference in their lives.

The school provides a diverse, student-centered environment in which all students are held to high academic and behavioral standards. Students work in collaborative relationships, both within and outside the school, and perform service to the community. Through a personalized learning approach to education, the school strives to develop students who are competent, self-motivated, life-long learners. In order to accomplish this, the school emphasizes increased parental involvement, more one-on-one teacher and student interaction, attention to differences in learning styles, student-driven participation in developing the learning process, technology access, varied learning environments, teacher and parent development programs, and choices in curriculum programs.

The school places a strong emphasis on parental involvement within the learning process. Parents are viewed as an essential link in improving education; therefore, parents are encouraged to take part in their children's education through frequent communication with the teachers, participation in school related functions, and attendance in school sponsored parent development workshops. By providing a vehicle for meaningful parental involvement, the school strives to bridge the gap between school and home. It is the hope of the school that students will observe first-hand their parents and teachers working together to make a difference in their education and future.

School Description and Profile (School Year 2021-22)

Crescent View West is a public charter school that offers a personalized educational program for high school students and families who prefer using an Independent Study model to meet academic needs. Typical students are those who want an alternative to the local, public school systems. Most students come to the school because they were unsuccessful in the traditional high school setting, or they needed a more personalized approach to education. Other students need the flexibility of an independent study model to meet family obligations such as work or caring for a child. Regardless of the reason, the school offers a uniquely structured academic program, rigorously guided by the California Subject Area Content Standards that provides a challenging, yet highly individualized, education for students.

A. CONDITIONS OF LEARNING

State Priority: Basic

The SARC provides the following information relevant to the State priority: Basic (Priority 1):

- Degree to which teachers are appropriately assigned and fully credentialed in the subject area and for the pupils they are teaching;
- Pupils have access to standards-aligned instructional materials; and
- School facilities are maintained in good repair

Teacher Assignment

The school recruits and employs qualified credentialed teachers who meet all credential requirements in accordance with State of California guidelines. This chart displays information about teacher credentials at the school.

Note: As an independent charter school, the school's program, resources, and administration are run independently from the sponsoring district, so there is no district data to report for comparison in this section.

Note: The data in this table is based on Full Time Equivalent (FTE) status. One FTE equals one staff member working full time; one FTE could also represent two staff members who each work 50 percent of full time. Additionally, an assignment is defined as a position that an educator is assigned to based on setting, subject, and grade level. An authorization is defined as the services that an educator is authorized to provide to students.

Teacher Misassignments & Vacancies

Misassignments refers to the number of positions filled by teachers who lack legal authorization to teach that grade level, subject area, student group, etc. Teacher vacancies reflect the number of positions to which a single designated certificated employee has not been assigned at the beginning of the year for an entire semester or year.

Textbooks & Instructional Materials (School Year 2020-21)

The school determined that each student has sufficient and good quality textbooks, instructional materials, or science lab equipment pursuant to the settlement of *Williams vs. the State of California*.

All students, including English Learners, are given their own individual standards-aligned textbooks or instructional materials, or both, in core subjects, health, foreign languages, and visual and performing arts for use in the classroom and to take home.

B. PUPIL OUTCOMES

State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

- **Statewide Assessments** (i.e., California Assessment of Student Performance and Progress [CAASPP] System includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities).

The CAASPP System encompasses the following assessments and student participation requirements:

1. **Smarter Balanced Summative Assessments and CAAs for ELA** in grades three through eight and grade eleven.
 2. **Smarter Balanced Summative Assessments and CAAs for Mathematics** in grades three through eight and grade eleven.
 3. **California Science Test (CAST) and CAAs for Science** in grades five, eight, and once in high school (i.e., grade ten, eleven, or twelve).
- **SARC Reporting in the 2020-2021 School Year Only**
Where it was the most viable option, LEAs were required to administer the statewide summative assessments for ELA and mathematics. Where a statewide summative assessment was not the most viable option for the LEA (or for one or more grade-level[s] within the LEA) due to the pandemic, LEAs were allowed to report results from a different assessment that met the criteria established by the State Board of Education (SBE) on March 16, 2021. The assessments were required to be:
 - o Aligned with CA CCSS for ELA and mathematics;
 - o Available to students in grades 3 through 8, and grade 11; and
 - o Uniformly administered across a grade, grade span, school, or district to all eligible students.

- **Options:** Note that the CAAs could only be administered in-person following health and safety requirements. If it was not viable for the LEA to administer the CAAs in person with health and safety guidelines in place, the LEA was directed to not administer the tests. There were no other assessment options available for the CAAs. Schools administered the Smarter Balanced Summative Assessments for ELA and mathematics, other assessments that meet the SBE criteria, or a combination of both, and they could only choose one of the following:
 - o Smarter Balanced ELA and mathematics summative assessments;
 - o Other assessments meeting the SBE criteria; or
 - o Combination of Smarter Balanced ELA and mathematics summative assessments and other assessments.

- **College and Career Ready:** The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

Note: As an independent charter school, the school's program, resources, and administration are run independently from the sponsoring district, so there is no district data to report for comparison in this section

Note: The 2019-2020 data cells with N/A values indicate that the 2019-2020 data are not available due to the COVID-19 pandemic and resulting summative test suspension. The Executive Order N-30-20 was issued which waived the assessment, accountability, and reporting requirements for the 2019-2020 school year.

Note: The 2020-2021 data cells have N/A values because these data are not comparable to other year data due to the COVID-19 pandemic during the 2020-2021 school year. Where the CAASPP assessments in ELA and/or mathematics is not the most viable option, the LEAs were allowed to administer local assessments. Therefore, the 2020-2021 data between school years for the school, district, state are not an accurate comparison. As such, it is inappropriate to compare results of the 2020-2021 school year to other school years.

Career Technical Education (CTE) Programs (School Year 2020-21)

The school continues to develop its Career Technical Education (CTE) program. The school recognizes the need to integrate core academic knowledge with technical skills as needed for today's modern workforce, and the school is committed to bringing students greater opportunities in developing these skills through their continued efforts in developing relationships with local businesses and community colleges.

The school offers several professional skills and CTE courses that include:

- Career Exploration
- Child Development
- Child, Family & Society
- Introduction to Business
- Small Business Management
- Allied Health
- Medical Terminology
- Accounting
- Audio Video Production
- Business Information Management
- Computer Application and Technology
- Computer Programming

State Priority: Other Pupil Outcomes

The SARC provides the following information relevant to the State priority: Other Pupil Outcomes (Priority 8):

- Pupil outcomes in the subject area of physical education

State Priority: Pupil Engagement

The SARC provides the following information relevant to the State priority: Other Pupil Outcomes (Priority 8):

- Pupil outcomes in the subject area of physical education

Physical Fitness

In the spring of each year, all California schools are required by the state to administer a physical fitness test to students in the fifth, seventh, and ninth grades. The physical fitness test is a standardized evaluation that measures each student's ability to perform fitness tasks in six major areas. Students who meet or exceed the standards in all six fitness areas are considered physically fit or in the "Healthy Fitness Zone" (HFZ).

The table displays the percent of students at the school meeting fitness standards by grade level, for the most recent testing period. Due to the COVID-19 pandemic, Executive Order N-56-20

was issued. This order waived the requirement to administer the physical fitness performance test results for the 2019-2020 school year. The most current data available to report is from the 2018-19 school year and is reflected in the table. Detailed information regarding this test may be found at the CDE website at <http://www.cde.ca.gov/ta/tg/pf/>.

Grade Level	Percentage of Students Meeting Four of Six Fitness Standards	Percentage of Students Meeting Five of Six Fitness Standards	Percentage of Students Meeting Six of Six Fitness Standards
9	N/A	N/A	N/A

Note: Due to the COVID-19 crisis, the Physical Fitness Test was suspended during the 2020-2021 school year and therefore no data are reported.

C. ENGAGEMENT

State Priority: Parental Involvement

The SARC provides the following information relevant to the State priority: Parental Involvement (Priority 3):

- Efforts the school district makes to seek parent input in making decisions regarding the school district and at each school site

Opportunities for Parental Involvement (School Year 2021-22)

Crescent View West encourages parental involvement throughout the school year. Our Parent Advisory Committee and English Learner Advisory Committee meets quarterly in the school year. The Parent Advisory Committee provides advice in planning, developing, implementing, and evaluating our school program. Parents and stakeholders are encouraged to participate in the development of the Local Control and Accountability Plan, and they are asked to provide input on the progress of the LCAP throughout the year. Parents are notified by automated phone calls and web-based communications from teachers and administrators. Parents may contact the school office at 559-222-8439 if interested in attending. Parent Conferences and Open House events are also held during the school year to facilitate communication between parents, teachers, students, and community partners. Parents are encouraged to call and meet with their child's teacher as needed to support academic progress towards graduation.

The SARC provides the following information relevant to the State priority: Pupil Engagement (Priority 5):

- High school dropout rates;
- High school graduation rates; and
- Chronic Absenteeism

Dropout & Graduation Rates

In knowing the “at risk of dropping out” status of the majority of students enrolling in the school, we begin interventions from the point of enrollment. Upon enrollment, students participate in a course entitled Professional Skills and receive a personalized learning plan to meet their goals. In addition, students are supported in determining their college plans and career interests. The teacher builds upon this throughout the year to support academic planning as well as college and career readiness.

Students also participate in academic assessments, such as NWEA, after enrollment. The academic assessments assist faculty and the students to understand the strengths and weaknesses of the student. More importantly, this method helps students receive any remedial instruction they may need and ensures students are not enrolling in courses too far removed from their current academic abilities. Unlimited free tutoring availability also serves as an intervention for students when they struggle with particular concepts. Together, all early interventions are intended to promote attendance and reduce the likelihood of student dropouts. However, these standard interventions are not always met with student success.

When faculty and staff (at school) witness a decline in the attendance of a particular student, more specific and targeted interventions take place in progressive steps:

- A missed day of school results in a call home from the student’s teacher
- A pattern of missed school days results in a parent-teacher or adult student-teacher conference
- A continued pattern of missed school days after a teacher conference results in an Attendance Intervention Meeting (A.I.M). The parent or adult student meets with the Student Retention Support Specialist to discuss the legal requirements of school attendance for minors and problems adults face as high school dropouts. If the student/parent cannot be reached, a home visit is conducted.
- A continued pattern of missed school days after an A.I.M. intervention is escalated to a Student Retention Meeting (S.R.M) intervention. Student Retention Meetings include the School Counselor, Supervising Teacher, School Administrator, and the Student Retention Support Specialist. When the student and parent meet with the S.R.M. team, serious conversations take place about the appropriateness of independent study for the student, school options, and the serious long-term consequences of dropping out of school.

Note: The California Department of Education DataQuest system reports one year dropout rates up to 2017 and one year graduation rates determined through the California School Dashboard. The school is a Dashboard Alternative Status School (DASS) as a result of the student population served. The tables display the most current data available. N/A is displayed when the school is new and there is no data available to report.

Chronic Absenteeism

The current Chronic Absentee rate is not calculated in a manner for non-classroom based DASS programs to reflect the nature of the students served. According to the CDE, students are determined to be chronically absent if they were eligible to be considered chronically absent at the selected level during the academic year and they were absent for 10% or more of the days they were expected to attend. Crescent View West follows all of the required CA State School Dashboard requirements.

State Priority: School Climate

The SARC provides the following information relevant to the State priority: School Climate (Priority 6):

- Pupil suspension rates;
- Pupil expulsion rates; and
- Other local measures on the sense of safety

Suspensions & Expulsions

The table displays the suspension and expulsion rates at the school and throughout the state. Expulsions occur only when required by law or when all other alternatives are exhausted. Due to the COVID-19 pandemic, the 2019-2020 suspensions and expulsions rate data are not comparable to prior year data. Since there was not in-person learning for the entire 2019-2020 school year, it would be inappropriate to make any comparisons of the suspensions and expulsions rates in the 2019-2020 school year to the rates in prior school years. Additionally, please note that the suspension and expulsion rate for the state was not available at time of publication.

TABLE 29: SUSPENSIONS AND EXPULSIONS (DATA COLLECTED BETWEEN JULY THROUGH JUNE, EACH FULL SCHOOL YEAR RESPECTIVELY)				
Rate	School 2018-2019	School 2020-2021	State 2018-2019	State 2020-2021
Suspension	0.0%	0.0%	3.5%	N/A
Expulsion	0.0%	0.0%	0.10%	N/A

Note: Data collected during the 2020-21 school year may not be comparable to earlier years of this collection due to differences in learning mode instruction in response to the COVID-19 pandemic.

TABLE 30: SUSPENSIONS AND EXPULSIONS FOR SCHOOL YEAR 2019-2020 ONLY (DATA COLLECTED BETWEEN JULY THROUGH FEBRUARY, PARTIAL SCHOOL YEAR DUE TO THE COVID-19 PANDEMIC)		
Rate	School 2019-2020	State 2019-2020
Suspension	0.15%	2.50%
Expulsion	0.00%	0.05%

Note: The 2019-2020 suspensions and expulsions rate data are not comparable to other year data because the 2019-2020 school year is a partial school year due to the COVID-19 crisis. As such, it would be inappropriate to make any comparisons in rates of suspensions and expulsions in the 2019-2020 school year compared to other school years.

School Safety (School Year 2021-22)

Our school Safety Plan consists of our Injury and Illness Prevention Program, Emergency Procedures and Section 4 of our Employee handbook. Sponsoring School Districts ask for these safety programs as part of our charter's renewal process. We review our School Safety Plans annually and update them if necessary.

The safety of students and staff is a primary concern for the school. Both teachers and administrators supervise the students throughout the school day to ensure a safe and positive learning environment. Both staff and student's school IDs are expected to be displayed at all times. Visitors to the sites must register at the front office to receive appropriate identification badges. The school safety plan was last updated and reviewed with school staff in December 2021.

D. OTHER SARC INFORMATION

The information in this section is required to be in the SARC but is not included in the state priorities for LCFF.

Class Size

Due to the nature of independent study, class size distribution data is unavailable for this school.

Counseling & Support Staff (School Year 2020-2021)

Using the ASCA National Model as a framework to deliver comprehensive school counseling services, school counselors seek to assist all students in the social/emotional, career and academic domains with specific attention to healthy personal development and growth. The school counselor's primary role is to support students with any barriers hindering their academic progress as they work towards completing their high school diploma. School counseling services are delivered through guidance curriculum, individual planning, responsive services, referrals to outside agencies, consultation and collaboration.

The following is a list of support staff available to students at the school.

Title	Ratio
Pupils to Academic Counselor*	1:285

*One full time equivalent (FTE) equals one staff member working full time; one FTE could also represent two staff members who each work 50 percent of full time.

Title	Number of FTE* Assigned to School
Counselor (Academic, Social/Behavioral or Career Development)	5.0
Library Media Teacher (Librarian)	0.0
Library Media Services Staff (Paraprofessional)	0.0
Psychologist	1.2
Social Worker	0.0
Nurse	0.0
Speech/Language/Hearing Specialist	0.5
Resource Specialist (non-teaching)	0.0
Other	0.0

*One full time equivalent (FTE) equals one staff member working full time; one FTE could also represent two staff members who each work 50 percent of full time.

School Expenditures (Fiscal Year 2019-20)

The table provides a comparison of the school's per pupil funding from unrestricted sources with other schools throughout the state. Supplemental/Restricted expenditures

come from money whose use is controlled by law or donor. Money designated for specific purposes by the district or governing board is not considered restricted. Basic/Unrestricted expenditures, except for general guidelines, are not controlled by law or donor. The California Department of Education issued guidance to the district in August 2018 regarding how to calculate school-level per-pupil expenditures.

For detailed information on school expenditures for all districts in California, see the CDE Current Expense of Education & Per-pupil Spending Web page at <http://www.cde.ca.gov/ds/fd/ec/>.

For information on teacher salaries for all districts in California, see the CDE Certificated Salaries & Benefits Web page at <http://www.cde.ca.gov/ds/fd/cs/>.

To look up expenditures and salaries for a specific school district, see the Ed-Data Web site at: <http://www.ed-data.org>.

Types of Services Funded (Fiscal Year 2020-2021)

Utilizing all of the funding sources provided to the school, we provide the following programs for students:

- Special Education programs for SELPA, students with special needs
- English Language Development - support for students in English Language acquisition - instructional and support methods
- Tutoring support - one-on-one, walk-in, in-person, and virtual tutoring support
- General operations -services, materials, technology, salaries, benefits, and support to the general education

Professional Development

The school's certificated staff members and administrators participate in ongoing professional development to improve curriculum and delivery of instruction with a focus on increasing student learning, leadership development, and social emotional learning. Dedicated time is set aside for staff professional development throughout the school year. These sessions focus on a wide variety of topics aimed at strengthening pedagogy and content knowledge to meet the needs of the school's diverse learners. Special emphasis is placed on targeting the unique needs of its English language learners, special education students, and lowest-performing students. With a focus on

continued improvement, staff participate in regularly scheduled Professional Learning Communities in which they come together in content-alike teams to analyze student learning data to better inform curricular and instructional decisions that will address the immediate learning needs of students.

In addition, school administrators participate in ongoing professional learning with the focus on effective school leadership practices and instructional leadership. The Leadership Team and the Professional Learning Coordinator work together to identify school-wide focuses for its campuses each year and take the lead in conducting or organizing large and small group staff development opportunities and ongoing instructional coaching to its teachers aimed at the school needs. Topics covered through professional developments are based on the needs of the school, suggestions made by the school staff through department meetings and/or staff surveys, and through the collection and analysis of data indicating school needs and/or needed changes. Professional Development will be measured annually to determine the effectiveness of student learning outcomes.

Newly hired teachers, tutors, and paraprofessionals are partnered with existing expert job-alike mentors through the school's staff onboarding program and participate in a required on the job training for the purpose of familiarizing them to their specific scope of work within the program and equipping them with the necessary skills to be successful. The staff onboarding program also requires that all educators participate in a multi-part module series to gain an understanding of the mission and vision of the school with a specific focus on curriculum and instruction, data and assessment, personalizing student learning, serving special populations, distance learning, and trauma informed practices.

The school provides induction training to its preliminary credentialed teachers through its partnership with the local county offices of education. Participating teachers are partnered with a highly qualified induction mentor from their designated school site and participate in all required induction activities. The school's special education teachers receive annual training on new procedures and processes, as well as effective instructional strategies for improving academic achievement. In addition to ongoing professional development opportunities offered locally, staff also participate in the California Charter Schools Association's annual CCSA Conferences, annual A-plus+ conferences, and other conferences sponsored by local county offices of education.
