H. The Board will be asked to approve the Local Control Funding Formula (LCFF) for school year 2026-2027, which drives the primary source of funding for the charter school

Guita Sharifi explained that LCFF funding is the primary source of the school's revenue and determines the funding for charter schools, which has two primary components: a base rate component that applies to all schools that depends exclusively on Average Daily Attendance (ADA) by grade span, and a supplemental and concentration component that depends on the percentage of the school's English Learners, foster youth, and low income students. The LCFF calculation is the largest source of the school's unrestricted revenue and is essential to budget and LCAP development. Ms. Sharifi reviewed the total LCFF revenue estimated to be received for the 2026-2027 school year, including the total supplemental and concentration funding. She then recommended the board approve the LCFF for the school year 2026-2027.

Ms. Sharifi explained the May Revision is materially stronger than the January Governor's Budget, but it should be read as cautiously positive, not structurally secure.

Ms. Sharifi then reviewed the ADA, expenditures, revenue, and projected reserves, and highlighted the following areas:

- The school's projected ADA for school year 2026-2027 is 1,820, which is an increase compared to the current school year.

Annually, each local educational agency submits the spring release of the ConApp to document participation in certain categorical programs and provide assurances to comply with the legal requirements of each program.
